

ACKNOWLEDGEMENTS

At the onset let me express my gratitude towards the All Mighty for giving me the motivation and hope to present this work.

The constant beacon of light and the edifice of the work have been Dr. Vinay Avasthi, Dr. Hanumat Sastry G and Dr. G V B Subrahmanyam, any amount of gratitude would fall short for the kind of contribution towards making of the work. The source of the idea and implementation would not take its current shape without their guidance. They have been a great source of motivation, friendliness throughout the work.

I would like to express my heartfelt gratitude towards the Chancellor and Vice Chancellor who gave their kind consent to carry on this work and providing support throughout this work. I would also like to thank the Dean, Dr. Kamal Bansal and the Director SOCS, Dr. Manish Prateek, for their constant guidance and help for a complacent of the current work.

I would be failing in my duties if I don't thank Shri. Naresh Chand Bhardwaj, Shri. Ashok Kumar Sewal, Shri. Vikram Farshwan for their constant support.

The greatest sense of acknowledgement would go to my family members who have been in the roots of whatever I am and have achieved in my life including this work.
